Water for Smart Liveable Cities

#WorldWaterCongress
Join leading water professionals and business leaders at the IWA World Water Congress & Exhibition. Five critical days of discussions will see thought-leaders, decision makers and leading researchers focusing on water for smart liveable cities and the SDGs.

The Nordic region is a world leading hub for technology and innovation, making it the ideal location for the Congress; a space to inspire change, stimulate innovative research and for sharing of best practices for a water wise world.
The Congress in numbers, Tokyo 2018

- 9815 participants
- 252 presentations
- 98 countries represented
- 9 world renowned keynote speakers
