

SPECIALIST GROUPS (SG) LEADERS FORUM

10 SEPTEMBER 2022

Empowering members and enhancing engagement

COPENHAGEN
DENMARK

11-15 SEPTEMBER
2022

WHAT IS THE FORUM?

The IWA SG Leaders Forum is for SG Leaders to discuss how groups can better engage members through enhanced communication strategies and targeted outreach to underrepresented sectors and geographic regions, while maximising the use of available resources from IWA Secretariat.

WHO WILL ATTEND?

Specialist Groups Leaders (Management Committee, Chair or nominated representative) are coming together to discuss scientific, technical, and management topics.

WHY SHOULD YOU ATTEND?

The SG Leaders Forum provides a unique face-to-face opportunity for IWA SG Leaders to communicate with one another and with the IWA Secretariat, discuss issues relating to IWA strategies, exchange experiences on SG management and member engagement, and connect with other IWA vehicles. It strengthens all IWA SGs, TGs, and Clusters and helps to improve how groups can better contribute to the water sector by working together.
